Real Estate and Construction Division's satellite communications requirements in the period 1982-1987 are as follows, as we perceive them now:

Real Property System

STATINTL

1. Number of stations requiring service simultaneously: [REDACTED]

2. Service required on full-time, part-time shared or on-call basis: Shared and on-call basis.

3. Frequency of use: When a station or base acquires or disposes of real property--purchase, assignment, lease, rental--and or when occupancy changes, terms of occupancy change, or other material facts occur which warrant noting in the record of Agency property holdings. Estimated average frequency of use--once per month; estimated average hours per day: zero hours 2 minutes.

4. When will service be required at each location: when the Office of Communications is in position to provide it.

5. What data rates will be transmitted: The standard for communications and data technology--assume it will be T-1 rate (1.544 million bits per second) or successor standard.
